Teacher Questionnaire

An online questionnaire exploring your beliefs and attitudes toward and knowledge about the IELTS. It also explores your approach to teaching test preparation courses, and what you and your students do in the classroom.

Teacher Interviews

Several teachers will be selected to have face-to-face interviews with one of the researchers. These interviews will explore the issues raised in the questionnaire in more detail. They should take no more than 30 minutes.

Classroom Observation

The researcher will observe your IELTS preparation class for 1-2 hours, noting what activities go on and what you and your students do.

To be Involved

Go to <http://ieltsresearch.weebly.com> for more information and link to the questionnaire. Then sign up for Interview and Observation.
